The “**Policy Colloquia**” are events gathering **academics, practitioners and policymakers** and engage them into debates and the exchange of ideas and good practices. Main topics addressed revolves around the the themes characterizing CiMET community: **industry and productive systems, economic and social development, the internationalization of businesses and territories**. These meetings wish to encourage the exchange of ideas, insights, and perspectives, with the aim of promoting a dialogue between scholars, policymakers and other experts working into different realms but sharing the same interest and search **for effective, efficient and innovative policy approaches and solutions**.

The “Policy Colloquia” involves academic, representatives from local institutions and business and trade unions, while encouraging also the participation of younger generations of researchers, managers and civil servants.
